

Microsoft Teams - Direct Routing

4Sight Communications is partnering with Gamma to bring you Microsoft Teams - Direct Routing, that combines the pedigree of the UK's leading SIP Trunk provider with the ubiquity of the world's largest business communications platform.

Why would you want it?

Cost saving

Significant cost saving per user when compared to Microsoft's calling plans (allows you to maximise existing 365 license cost).

Access to Education Community

Using our "Janet Connected" accreditation means that we can provide IP voice services to the education community in a direct manner.

Complete Cloud Solution

Cloud-based solution with no expensive initial outlay as there's no need for traditional hardware.

Never miss a call

Tailored business continuity with network and number level resilience to keep your business working.

Agile working

Allows for flexible and remote working and enables a collaborative approach.

Access to advanced call statistics

Online access to comprehensive call statistics enables informed business decisions. Advanced management information relating to call handling efficiencies, productivity, call patterns and caller behaviour. Data includes time to answer, call waiting time, call outcome and caller details statistics.

01, 02, 03 and 08 number termination

01, 02, 03 and 08 termination with no number translation.

Number porting

Keep the same geographical number wherever you are.

Give Microsoft Teams a voice

Many businesses utilising Microsoft Teams for internal collaboration can now benefit from the ability to make and receive calls by enabling Teams as a full cloud-based UC solution with enterprise grade telephony.

Give your Teams a voice with confidence - benefit from a highly reliable, resilient architecture with Direct Routing that includes simple provisioning, enhanced call control features and carrier grade infrastructure.

All provided at a competitive price, as a complete cloud solution.

Microsoft Teams - Direct Routing

Enable full voice capability natively into Microsoft Teams, as an alternative to Microsoft calling plans and without the need for on-premise hardware.

Teams - Direct Routing from Gamma utilises Microsoft certified Session Border Controllers (SBCs) to deliver better value, greater flexibility, increased functionality and support for migration, all as a cloud-based service.

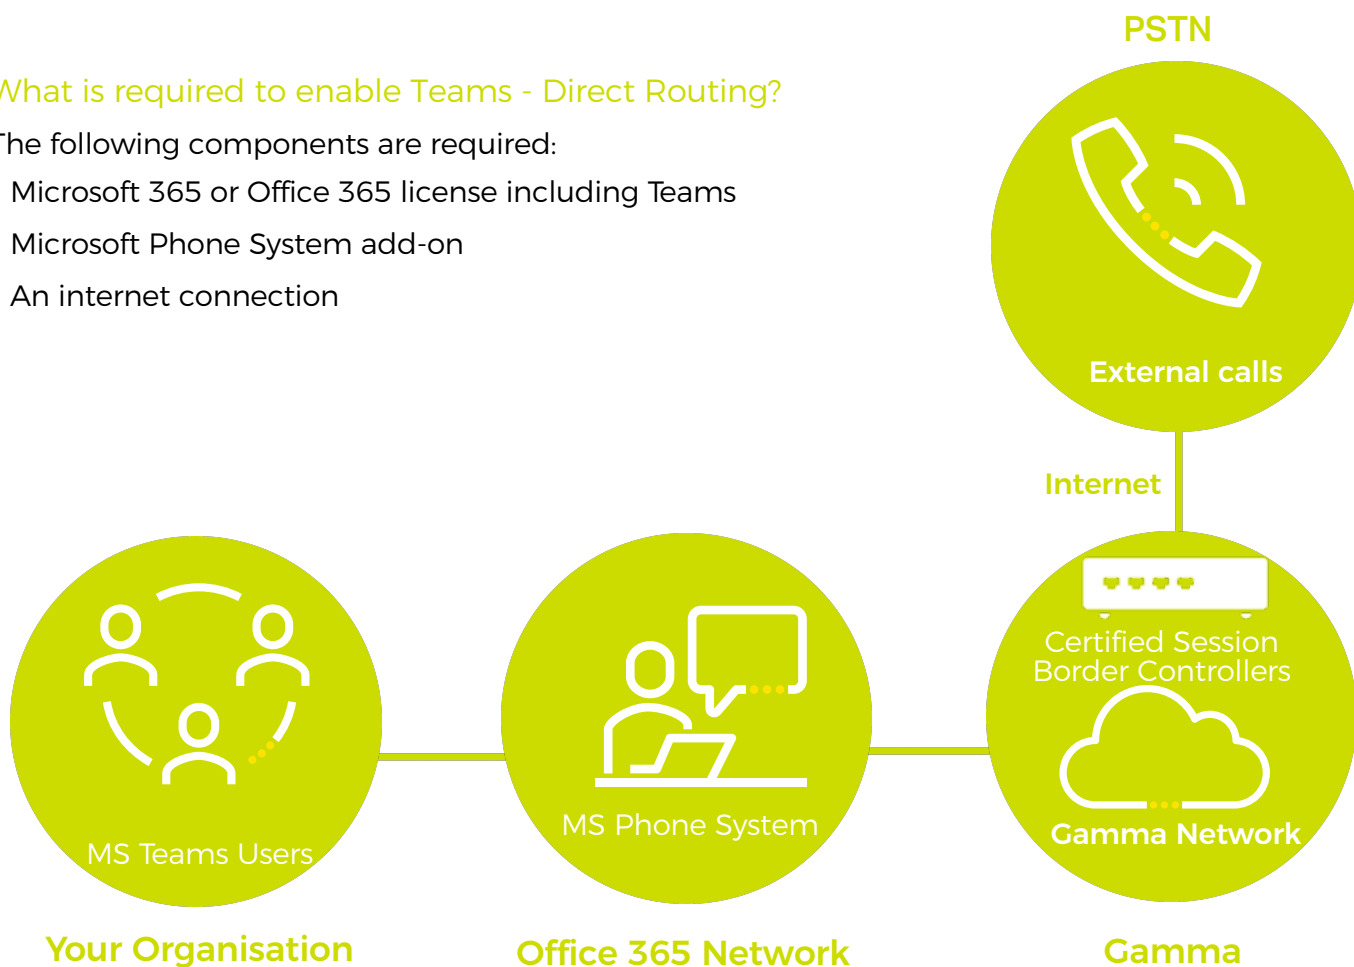

Teams - Direct Routing provides connectivity to your Microsoft Team's tenant enabling full PSTN breakout on the public telephone network. Connection from Microsoft Teams to our network is via an IP connection (for example Gamma Broadband or Ethernet) and is delivered as an end-to-end service with high availability.

What is required to enable Teams - Direct Routing?

The following components are required:

- Microsoft 365 or Office 365 license including Teams
- Microsoft Phone System add-on
- An internet connection
